

### DISPLAY, SALE AND SIGNAGE FOR AERIAL FIREWORKS

All aerial devices shall be packaged and displayed for sale in a manner that would provide public safety by completing one of the following:

- Provide constant visual supervision by direct line of sight by a designated store employee where the aerial display is not more than 25 feet from the designated employee's work station; or
- Provide constant visual supervision by direct line of sight by a store employee when all of the following requirements are met:
  - The aerial display shall not be more than 40 feet from the designated employee's work station and,
  - The aerial devices are restrained by using at least one of the following methods:
    - The aerial devices are placed in a bin or bins that would reasonably limit the effect of the pyrotechnic materials if ignited and would not allow rapid spread of fire to areas away from the immediate area of ignition or
    - The aerial device shall have an additional layer of packaging requiring that the additional layer of packaging be punctured or torn to gain access to the fuse cover.
    - Place aerial devices in an area that is physically separated from the public so that the customer cannot handle the aerial device(s) without the assistance of an employee

**Note:** Where aerial devices are sold in permanent structures, they shall be placed in a location that gives the customer access to the aerial devices just before the customer checks out and exits the store.

Wherever aerial devices are sold, there shall be signage with a minimum font of one inch, to warn and inform the customer of the dangers of aerial devices and the signage shall state the following:

**Aerial fireworks are designed to travel up to 150 feet into the air and then explode. Aerial fireworks shall be placed on a hard level surface outdoors, in a clear and open area prior to ignition. Anyone under the age of 16 shall not handle or operate aerial fireworks. Ignition of aerial fireworks shall be a minimum of 30 feet from any structure or vertical obstruction. Aerial fireworks shall not be ignited within 150 feet of the point of sale. Please read and obey all safe handling instructions before using aerial fireworks.**
