Address: _____

Provide a floor plan with approximate scale and northern direction, showing the location of each storage area. **If you desire location confidentiality, mark map clearly, "Confidential – Do Not Disclose."**

Identify each storage area with identification number, letter, name or symbol.

Show the following:

- a. Access to each storage area.
- b. Location of emergency equipment.
- c. The general purpose of other areas within the facility.
- d. Location of all above ground and underground tanks to include sumps, vaults, below-grade treatment systems, piping, etc.

Provide the following information on a map or in a map key or legend for each storage area:

- a. A list of all hazardous materials including wastes.
- b. Hazard class of each hazard waste.
- c. The maximum quantity of hazardous materials.
- d. Include the contents and capacity of all tanks at each area and indicate whether they are above or below ground.
- e. List separately any radioactive, cryogenics and compressed gases for each facility.
- f. Trade secret information shall be listed as specified by Federal, State and Local laws.

FACILITY STORAGE MAP: INSIDE

Provide a floor plan of each building identified on the site plan as containing hazardous materials on 8 ½ by 11 inch paper (or on the space provided below), identifying the northern direction and showing the location of each storage and use area, including hazardous waste storage areas. Please show the following: accesses to each storage and use area, location of emergency equipment, location where liaison will meet emergency responders, facility evacuation meeting point locations, general purpose of other areas within the building, location of all aboveground and underground tanks, hazard classes in each area, locations of all H occupancies, control areas and exterior storage use areas and show all emergency exits.
