

PUBLIC NOTICE

Unified Fire Station #125 New Location Construction to Begin

Construction of a new building to replace Midvale Fire Station #125, currently located at 7683 S. Holden Street, will begin in 2021.

The new station will be located at 655 W. Center Street and construction is anticipated to take 12-16 months.

The new station will include three bays and 10 dorm rooms. This will allow space for UFA to increase staffing as the community and call volume increases in future years.

Engine 125 will operate out of the current location until construction is complete. A more defined timeline will be provided in the coming months.
